KM-112

Karaoke Mixer with PC to USB Interface

Transform your DVD, MP3 Player or PC into a karaoke machine!

Features:

- **Multiplex Function.** Adjust audio channels to Stereo/ Mono Left/ Mono Right. Works with all CD+G and VCD discs or music with Multiplex recording. Conveniently placed on the front panel.
- **USB-to-PC Connection.** Play karaoke music from your PC and record your performance back to your PC using the USB port. Now you can sing on your PC and enjoy the best quality sound with no signal loss.
- **Windows XP and Windows Vista compatible only.** This device is plug and play; no need to install additional software
- **3D Sound Enhancer.** Enhance a full ranger of frequencies. Able to turn on or off.
- **Integrated USB Audio Solution using C-Media CM106 Audio I/O Controller.** Even if you don't have a sound card for your computer, the KM-112 works as an external sound board via USB port that you can play and record your sound sources. You can connect a microphone and a headphone to the KM-112 Mixer and use it for Skype or making a phone call using MSN.
- **Works as a PC Sound Mixer.** You can connect your headphone or computer speaker to the Acesonic KM-112 to listen to music from your PC and use the knobs on the front to adjust sound volume level and add 3D sound to your music enjoyment.
