

# Acesonic® DGX-213

## Professional HDMI Multi-Format Karaoke Player & Digital Recorder

### Convert your CD+Gs to MP3G at 4X the Speed!

#### Features:

- **Digital Recording** - This totally independent feature can record your speeches or dictations without needing to have a disc playing. You can also record singing along with audio and lyrics essentially creating an MP3G with you leading the vocals! Playback recordings with a push a button and easily see if your timing is in sync with the words on screen. Great for practice. Great for sharing.
- **Headphone Jack** - Built-in to the front panel so you can listen to your tracks privately.
- **Professional mixer** - Built-in professional mixer greatly improves sound quality.
- **Full MP3G Support** - With MP3G becoming the new standard for karaoke because it is easy to store and transport, the DGX-213 will play MP3+G from CDs, DVDs, memory cards, or USB drives. Supports up to 10,000 MP3Gs.
- **CD+G to MP3G Converter** - Go digital! Convert all your CD+G discs into MP3G and store them on SD cards, external hard drives or USB flash drives. Simply place your CD+G into the disc tray and encode directly to your storage device. You need only check off the tracks or the entire disc.
- **Faster Ripping Speeds** - Capture a CD or CD+G disc to MP3 or MP3+G at 1x or the faster 4x speed and save you over 75% of capturing time.
- **HDMI Port** - Allows 1 connection from player to your TV for both audio and video, including microphone audio. You can turn any HDMI Monitor into a karaoke screen. Sending audio signal digitally, you are getting the best sound quality without any interference.
- **MIC Audio through COAX & Optical Output** - The only player to output microphone/vocal audio through COAX & Optical outputs eliminating the need for complex settings or connections.
- **Play Last Recorded Track** - Just push a single button after recording to playback. No more spending lots of time going through menus leaving more time to record.
- **Full 1080p** - Pictures are displayed as clear as possible up to 1920 x 1080 resolution using the HDMI output.
- **Cue On Function** - Player will stop at end of each track to wait for your next song selection.
